

K-LOVE radio offers family friendly and uplifting hope filled programing to citizens in our community. I have teenagers. K-LOVE is a positive option in a world where student on student violence, teen suicide and teen pregnancy seem to be rampant. K-LOVE offers wholesome programing that is often instructional. Our community, our state, our nation, our world needs hope, and positive instruction. Without this positive option, our citizens and our teens would be forced to choose from less wholesome radio programming. Please do not allow LPFM to take priority as we need radio programming like K-LOVE as a POSITIVE and WHOLESOME option. Please do not take away our right and our access to wholesome and positive programming. It is in the public interest to to keep service like K-LOVE accessible because there are so many less wholesome....and even damaging media outlets, please do not take away one of the few positive beacon's in today's world. Please do not extinguish the light.
